A WOMAN'S REINCARNATION. The greatest interest is manifested in The greatest interest is manifested in they took when feeling dull and had Paris in a book by M. Flournoy, pro- with headaches and other aches. You fessor in the faculty of sciences in Geneva, giving the history of some remarkable observations. The case is the apparent reincarnation of a woman, aged thirty years, of irreproachable character, who is engaged in a commercial house. She is subject to fits of somnambulism wherein she refers to somnambulism wherein she refers to three previous existences, on the plan-et Mars, in India and in France in the

As regards India she speaks and wil es Sanskrit and Arabic, showing a thorough knowledge of both. Flour-noy verified by means of old historical m nuscripts only accessible to students of history, the truth of the principal episodes to which she referred. No stress is laid on the Marie Antoinette

Throughout the day vast crowds gather. ed outsideBuckingham Palace and along the advertised route to the railroad station and when the royal carriage finally started for Hyde Park on its way to Paddington, the enthusiasm broke out into cheers, which almost was unbroken until the train departed.

Previous to leaving the palace there was a brief but interesting ceremony on the grounds where two thousand Khaki clad guardsmen, in full marching order, were drawn up for the final inspection of her majesty before their departure for South Africa on Wednesday. Real Queen's weather enlivened the scene, with bright sunshine and the temperature as mild as May. The Queen accompanied by the Prince and Princess of Wales, the Duke and Duchess of York, Prince and Princess Christian of Schleswig-Holstein, the Princess Beatrice, drove slowly slong the line and, to the Duke of Cambridge, who was present as hon-orary colonel of the Grenadiers, her Majesty expressed admiration for the splendid appearance of the men.

After the inspection cheers for the Queen were called for and enthusiestic nurrahs rent the air with the soldiers waving their helmets on the points of their bayonets.

The general public was excluded but the Queen specially invited the wives and children of officers now in South Africa to be present.

WOMAN STARVING AND FROZEN.-A most pitiful case of dementia and suffering was discovered Thursday afternoon last, by Mr. Jacqueline S. Ware, whose farm is located about three miles the Potomac, and will supply customers in quantities to suit, either fresh or salted, by east of Berryville, Va. While riding near a straw stack he discovered a note in the control of the control o a straw stack he discovered a hole in its for nearly three weeks, without food or clothing, other than the thin garments

she then wore. She said that she had no home, and went there to die. She is Miss Marshie Dove, sister of Messrs. Albin, William and Jack Dove, of the southern part of Clarke county. It is believed that her mind is affected. She was very much emaciated from her long fast, having had nothing but a little snow to eat. One arm and one leg were frozen, and she was so weak that she could not walk alone. The county authorities have taken the unfortunate woman in charge, and will see that she gets proper medical treatment. It is telieved that she will recover.

Flournoy, who suspected trickery either spontaneous or instigated, abandoned the hypothesis when the enany of my family or myself begin to catch cold we begin to use the Cough Remedy, and as a result we never have to send away for a doctor and incur a large doctor bill, for Chamberlain's Cough Remedy never fails to cure.
